

What is the largest solar park in Latvia?

This will be European Energy's first project in Latvia and the largest solar park in Latvia. The Targale solar park is expected to be connected to the electricity grid in 2024 and will generate approximately 110,000 MWh of green energy annually, providing around 52,000 households with their annual electricity consumption.

Will there be a solar panel Park in Latvia?

Work has already begun on the assembly of the panel structure to prepare for the laying of the panels," Berzins said. Merito, which is the owner of Kalkunes SES, will have eight such solar panel parks in Latvia, said Maris Plume, board member of the fund's cooperation partner, the company "Saules Energy" (Solar Energy).

What is European energy doing in Latvia?

European Energy started developing renewable energy projects in Latvia in 2021, and with the opening of its office in Riga, four employees have joined the company in Latvia to develop a strong pipeline of renewable energy projects in the country.

How much electricity will the Daugavpils solar power plant produce?

Annually, the solar power plant will produce 13,500 megawatt-hours of electricity, which will be enough to fully supply at least 6,500 households in the Daugavpils area. "We are located in Kalkune parish, we will start work here, we will build a solar panel park.

The first solar district heating system in Latvia started in Salaspils in 2019 (see Fig. 2). The project backed by EU, developed by LTD Filter, the Baltic energy solution specialist, and Arcon-Sunmark, the Danish solar heating specialist. The solar collector field covers more than 21,672 m<sup>2</sup> (12.8 MW) and consists of 1720 solar collectors ...
