

Which Simco Ion power supplies are UL & CSA approved?

UL,CSA and CE approved. The G165 (120V) and G265 (230V)will power up to two Cobra Ionizing Air Guns. CE approved. The N167 (120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar).

Which Simco Ion power supply is best?

The F167(120V) and F267 (230V) are among Simco-Ion's most popular power supplies. They can power a variety of shockless static eliminators,including the HS Nozzles (up to 100 nozzles),and MEB Bars. The units' compact size and budget friendly price make them customer favorites. UL,CSA and CE approved.

What type of power supply does Simco-ion use?

The N167(120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar). A terminal block connector inside the power supply allows for the connection of up to four static eliminators to one power supply. The units accept either shielded or unshielded cable.

How does Simco ion work?

Simco-Ion's powerful software provides complete control over the ionization system. Settings include adjustments for operating modes (including pulsed DC,Steady-state DC or standby),synchronization,on-times,of-times,power output levels and alarm thresholds for both positive and negative emitters,with independent control over each AeroBar.

How does Simco-ion control static charge?

Simco-Ion's self-contained compressed Air Ionizing Cartridgecontrols static charge in production,packaging,laboratory and other environments where static build-up can cause contamination,ESD,material handling problems or microprocessor lock-up.

Which Simco-Ion power supply is CE approved?

CE approved. The N167(120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar). A terminal block connector inside the power supply allows for the connection of up to four static eliminators to one power supply.
