

Who is maxvolt energy industries?

Maxvolt Energy Industries, a Noida-based producer and supplier of lithium battery packs for electric vehicles (EVs), has secured \$1.5 million in funding from several angel investors to advance its sustainable energy solutions by launching fast-charging lithium-ion batteries and establishing recycling facilities.

What is maxvolt energy?

"As a purpose-driven organization, Maxvolt is dedicated to providing eco-friendly energy solutions through our cutting-edge lithium-based batteries," said Satendra Shukla, chief business officer of Maxvolt Energy. "We are developing a fast-charging solution to significantly reduce customers' charging times.

What is maxvolt Energy Industries plc's production capacity?

Maxvolt Energy Industries PLC, a prominent producer of lithium battery packs for electric vehicles, energy storage systems, and medical devices, has boosted its production capacity from 21 MWh to 42.5 MWh to meet growing market demand during the festive season.

Why did maxvolt invest in lithium-ion batteries?

The company said the investment will support its plans to advance sustainable energy solutions and strengthen its market position by quickly introducing fast-charging lithium-ion batteries. Maxvolt said it aims to develop world-class lithium batteries for various sectors, including electric bikes, scooters, and solar energy systems.

What makes maxvolt a great battery company?

Maxvolt is committed to innovation and quality, aiming to develop world-class lithium battery architectures for various sectors, including electric bikes, scooters, and solar energy systems. The company adheres to global compliance and keeps up with the latest technological advancements to offer high-quality products.

What is the core technology behind maxvolt energy?

StartupTalky: Tell us about the core technology behind MaxVolt Energy's products or services and how it stands out from others in the market. Mr. Gupta: The core technology behind our products and services includes Active Balancers which basically work to improve the battery capacity and its fire resistance.

Venture Garage Mentored Innovator, Maxvolt Energy incubated in 2019, Secures \$1.5mn Funding in Latest Private Placement Round, with an eye on an SME-IPO within FY 24-25. 31st May 2024: Noida-based EV battery manufacturing startup Maxvolt Energy has successfully secured \$1.5 million in a Private Placement round of funding from VG-Angels and ...

Maxvolt Energy, a manufacturer of lithium battery packs, has raised \$1.5 million from angel investors to introduce fast-charging lithium-ion batteries and build recycling plants. The company said that the capital injection will support Maxvolt's research and development into lithium battery architectures for electric

vehicles such as scooters and rickshaws, energy ...

Maxvolt Energy is well-positioned for long-term success in the dynamic energy storage sector because of its remarkable expansion, noted the release. By 2035, it is anticipated that the worldwide lithium-based battery ...

Maxvolt Energy Industries PLC has doubled its production capacity to keep up with the surge in demand during the festive season. The company's plant in Ghaziabad has increased output from 21 MWh to 42.5 MWh, allowing Maxvolt to meet the growing needs of its customers with faster deliveries.

Maxvolt Energy is well-positioned for long-term success in the dynamic energy storage sector because of its remarkable expansion, noted the release. By 2035, it is anticipated that the worldwide lithium-based battery market would have a total addressable market (TAM) of USD 300 billion. Maxvolt is ideally situated to profit from the rising ...

2 ???· By offering a seamless transition from lead-acid to lithium technology, we are addressing the demand for affordable, efficient, and eco-friendly energy solutions," said Satendra Shukla, Chief Business Officer at Maxvolt Energy. This launch underscores Maxvolt Energy's commitment to sustainable innovation and its mission to make electric ...

Maxvolt Energy Industries Ltd has unveiled a cutting-edge range of electric two-wheeler (e2w) batteries, combining safety, performance, and user convenience. These new batteries feature Bluetooth connectivity for real-time performance monitoring, active equalizers for balanced cell performance, and advanced safety measures like fire-safe technology, multiple ...

Maxvolt Energy Industries Pvt. Ltd. is revolutionizing the modern technological landscape by equipping electric vehicles, illuminating portable lights, harnessing solar energy, and powering consumer electronics, says Vishal Gupta, Co-Founder and Chief Technical Officer, Maxvolt Energy Industries in an interview with Energetica India.

Maxvolt Energy's advanced lithium-ion batteries are here to make your rides smarter and smoother. ? With 3 years replacement warranty and the reliability of 19,000+ service points across India, Maxvolt is the trusted choice for every e-scooter owner. ?? Switch to Maxvolt today and experience the difference! ? Visit buff.ly/3L3uBtx ...

3 ???· The Maxvolt Eco Series provides superior performance, longer lifespan, and greater safety, all at a competitive price," said Mr. Satendra Shukla, Chief Business Officer of Maxvolt ...

Maxvolt Energy Industries, a manufacturer and supplier of lithium battery packs for electric vehicles, energy storage systems, and medical devices, has raised \$1.5 million in funding from multiple angel investors. The company said the investment will suppo

Established in 2019, Maxvolt Energy has quickly emerged as a leader in lithium battery technology, offering innovative and high-quality energy solutions. The company specializes in manufacturing and supplying lithium battery packs for Electric Vehicles (EVs), Energy Storage Systems, and Medical Device Batteries.

Maxvolt Energy Industries's operating revenue range is INR 1 cr - 100 cr for the financial year ending on 31 March, 2020. The current status of Maxvolt Energy Industries Private Limited is - Active. The last reported AGM (Annual General Meeting) of Maxvolt Energy Industries Private Limited, per our records, was held on 30 September, 2023.

2 ???· By offering a seamless transition from lead-acid to lithium technology, we are addressing the demand for affordable, efficient, and eco-friendly energy solutions," said ...

Maxvolt Energy was founded in 2019. Where is Maxvolt Energy headquartered? Maxvolt Energy is headquartered in Karkardooma, India. What is the size of Maxvolt Energy? Maxvolt Energy has 19 total employees. What industry is Maxvolt Energy in? Maxvolt Energy's primary industry is Electrical Equipment. Is Maxvolt Energy a private or public ...

Maxvolt Energy Industries has successfully raised \$1.49 million in angel-backed funding to fuel the development of advanced lithium-ion batteries designed to power electric vehicles and other sustainable energy applications. This strategic investment will enable Maxvolt to further its mission of providing globally compliant and technologically advanced products that ...
