

What is Malaysia's Energy Outlook?

The outlook provides a comprehensive, renewables-focused, long-term energy pathway for the transition to a cleaner and more sustainable energy system in Malaysia.

Why does Malaysia need a future-proof energy system?

Malaysia recognises the importance of a future-proof energy system that is modern, reliable and affordable. We also believe that a sustainable and low carbon energy sector is vital to contain the impacts of climate change.

How can Malaysia transform its energy system?

Utilise the long-term opportunities of the energy transition - through the development of cohesive and integrated long-term energy planning strategies. Malaysia has taken important steps to transform its energy system to a more secure, clean and affordable one in the future.

What percentage of Malaysia's energy supply is renewable?

As of 2024, IRENA notes renewables account for just 5% of Malaysia's energy mix. Hydropower and solar make up the majority. However, according to government data, as of the end of 2020, renewable energy sources accounted for 23% of national power. Total Energy Supply (TES) by Source, Malaysia 1990-2020, Source: IEA

Who are Malaysia's Energy Regulators?

These included the energy regulator (Energy Commission), state utilities (Tenaga Nasional Berhad, Sarawak Energy Berhad, and Sabah Electricity Sdn Bhd), the Ministry of Transport (MOT), and other stakeholders (Single Buyer, Grid System Operator, and Malaysian Green Technology And Climate Change Corporation)

Can Malaysia reach a 50% renewable share in electricity generation?

According to the Energy Commission, to reach a 50% renewable share in electricity generation, Malaysia would require a total investment of around USD 6-11 billion. Solar PV would play a crucial role in this.

ENERGY STAR® is the simple choice for energy efficiency. For more than 20 years, EPA's ENERGY STAR program has been America's resource for saving energy and protecting the environment. ENERGY STAR makes it easy for consumers and businesses to save money and protect the environment.
