

Illoulofin Solar Power Station, is a 50 megawatts (67,000 hp) solar power plant in Benin, whose first 25 MW was commissioned on 19 July 2022, and the next 25 MW is under construction and is expected to come online in 2025.

Benin has begun construction of the 25 MW Forsun photovoltaic plant, which will join the Defisol and TTC projects to expand the total capacity of the Illoulofin solar power plant to 75 MW. The government said the project is supported by an investment of \$25.8 million.

Benin is inaugurating its first large-scale solar photovoltaic power plant. The installation, located in the locality of Illoulofin, was recently commissioned. The reception ceremony presided over by Benin's Minister of Energy Dona Jean-Claude Houssou took place on Tuesday 19 July 2022.

Toyota Tsusho Corporation, a Japanese conglomerate, has sealed a deal with the Beninese Electricity Production Company to erect a 25 MW solar power plant in Benin's Pobé region. This venture represents the first ...

The government of Benin has announced the commencement of construction on the Forsun PV power plant, a 25 MW solar project that will increase the total capacity of the Illoulofin Solar Power Station from 50 MW to 75 MW. The expansion involves three solar arrays and represents a significant step in the country's transition to clean energy.

Toyota Tsusho Corp (TYO:8015) announced on Thursday it will set up a 25-MW solar power plant in the Pobe region of Benin. The project has been approved by the government of the West African nation. It marks the first large-scale renewable energy project by a Japanese firm in West Africa.

Benin is planning to generate 300 Megawatt in terms of solar energy by 2030, as the western African country strives to mitigate the energy deficit. Samou Séidou Adambi, the country's minister of Energy made the announcement Saturday October 7 on the sidelines of the 15th Summit of ministers of Energy of the regional organization, ECOWAS.

Benin has begun constructing the 25 MW Forsun PV Plant, a key project in the Illoulofin Solar Power Station's expansion to 75 MW. Backed by a \$25.8 million investment, it underscores the country's commitment to renewable energy and sustainable development.

Benin is inaugurating its first large-scale solar photovoltaic power plant. The installation, located in the locality of Illoulofin, was recently commissioned. The reception ceremony presided over by Benin's Minister of ...

Toyota Tsusho Corporation, a Japanese conglomerate, has sealed a deal with the Beninese Electricity Production Company to erect a 25 MW solar power plant in Benin's Pobè region. This venture represents the first large-scale renewable energy project in West Africa by a Japanese entity.
