

Why should Tajikistan invest in hydropower?

Tajikistan's geographic proximity to some of the world's fastest-growing energy markets means that investing in developing its hydropower potential can contribute to regional energy security and the clean energy transition, in addition to addressing Tajikistan's high vulnerability to climate change and natural disasters.

What is IEA's energy sector review of Tajikistan?

This International Energy Agency (IEA) energy sector review of Tajikistan was conducted under the auspices of the EU4Energy programme, which is being implemented by the IEA and the European Union, along with the Energy Community Secretariat and the Energy Charter Secretariat.

Does Tajikistan have a hydro power plant?

With abundant water potential from its rivers, natural lakes and glaciers, Tajikistan is almost exclusively reliant on hydro for electricity generation. It is home to some of the world's largest hydropower plants and is ranked eighth in the world for hydropower potential with an estimated 527 terawatt-hours (TWh).

Is Tajikistan moving its energy sector towards more reliability?

With an aging electricity supply that relies almost entirely on one source of power generation, hydropower, Tajikistan has a uniquely unstable power supply that has caused energy shortages and rolling blackouts for decades. Now, Tajikistan appears to be moving its energy sector towards greater reliability and sustainability.

Where did Tajikistan get its electricity from?

Tajikistan's hydropower plants serviced southern Uzbekistan and Turkmenistan. During winters, upstream Kyrgyzstan and Tajikistan stored water and relied on electricity generated by the thermal power stations of their neighbors.

Will Tajikistan's energy production grow by 2040?

Alongside mass growth in Tajikistan's production of green hydrogen, Juma stated that Dushanbe plans for 10% of Tajikistan's energy production by 2040 to come from other renewable sources such as wind and solar.

Nedap Identification Systems is part of Nedap N.V., which has its headquarters in the Netherlands. With a far-reaching distribution network across five continents and local offices in the Netherlands, United States, Spain, France, Italy, Dubai, and Singapore, ...
