

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

How many solar panels does New Caledonia have?

Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will feature a lithium-ion energy storage system (ESS) with a capacity of nearly 10 MW.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia," said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

Could a plant in New Caledonia make electric car batteries better?

Nickel is vital to electric car batteries, but extracting it is dirty and destructive. A plant with a turbulent history in New Caledonia is about to become an experiment in doing it better. GORO, New Caledonia -- From the reef-fringed coast of New Caledonia, the Coral Sea stretches into the South Pacific.

Does Prony resources support decarbonization in New Caledonia?

"Prony Resources New Caledonia's commitment to decarbonization is both ambitious and pioneering in the industry. We are very proud to support their energy transition, and that of New Caledonia," said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly.

Could a plant make New Caledonia better?

A plant with a turbulent history in New Caledonia is about to become an experiment in doing it better. GORO, New Caledonia -- From the reef-fringed coast of New Caledonia, the Coral Sea stretches into the South Pacific. Slender native pines, listing like whimsical Christmas trees, punctuate the shoreline.

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered "the most beautiful lagoon in the world"; ...
