As part of efforts to bridge energy gaps and address the energy crisis in Nigeria, one of the foremost indigenous renewable energy companies in the country, Nexgen Energy, has commissioned a multimillion naira facility in Ibadan.

This is where we come in as an independent distribution and services company for renewable energy solutions based in Ibadan Oyo State, Nigeria. At Nexgen we build, and supply product to help generate 24 hours electricity to homes and businesses across Nigeria.

Nexgen Energy and Allied Services Limited offers services in the sales and installation of renewable energy products such as batteries, solar panels and generators, inverters and charge controllers. Business Information

After taking a tour of the multi-million naira facility located at Aare avenue, Bodija, Ibadan, Ashamu commended Nexgen Energy for a "vital investment", acknowledging that situating the facility in Ibadan, the Oyo State capital, would boost the state's energy plans and sit well and support its energy policy.
