

Who owns nomadd desert solar solutions?

NOMADD Desert Solar Solutions, a photovoltaics cleaning system and spin-out company from KAUST, has secured a strategic investment by the Saudi construction company CEPCO. [File photo.](#)

Who is CEPCO investing in nomadd desert solar solutions?

[File photo.](#) NOMADD Desert Solar Solutions, a photovoltaics (PV) cleaning system and spin-out company from KAUST, has secured a strategic investment by the Saudi Arabian construction company CEPCO. The Series B investment round will support NOMADD's project pipeline and will further strengthen the company's growth ambitions.

Does nomadd clean solar panels?

NOMADD supplies waterless robotic cleaning systems for solar arrays. In the Middle East dust is the primary factor affecting solar plant performance. As all eyes in the solar industry are now focused on the many huge solar deployments in the pipeline across the region, the question of solar panel cleaning is a key part of the conversation.

Will nomadd be the sector standard cleaning solution?

An exemplar of the Saudi Vision 2030 for Economic Development and Innovation, NOMADD is anticipated to play a key role in these projects and is positioned to become the sector standard cleaning solution. "This commercial scale order is a great step forward for us," said Jos van der Hyden, CEO of NOMADD.

What is nomadd technology?

NOMADD technology addresses this challenge with a fully automated robotic solution that is cost-effective and requires no additional energy sources. In 2016, the KAUST Innovation Fund recognized the critical need for NOMADD's technology and became the first early stage investor into the startup.

Who owns nomadd & CEPCO?

NOMADD was founded in 2012 as a spin-off from King Abdullah University for Science and Technology (KAUST) and has its headquarters in Saudi Arabia. KAUST and DSM Venturing are the Series A investors in NOMADD. CEPCO is a leading construction company in the Saudi power transmission and distribution industry.

The achieved objective has been to make NOMADD desert-proof - as the arid environment causes things to break down at higher frequencies. The device is basically machined aluminum and stainless steel. ... Unlike some other solar panel cleaning solutions from North American and European companies, designed for mild climates, that use water and ...

NOMADD specializes in autonomous robotic cleaning solutions for solar panels, particularly designed for

harsh desert environments. The company offers a fully automated, water-less cleaning system that is cost-effective and designed to operate without the need for power transmissions, cables, gears, or pulleys.

NOMADD's "fixed-tilt installations" thus offer dust control solution for all desert solar array applications, with each of its robots capable of cleaning up to one kilometer of solar panels.
