Additionally, PDO is finalizing plans for a 100 MW solar PV-based IPP, named the "North Solar Storage IPP," set to include Oman's first battery energy storage system (BESS). This BESS, using lithium-ion battery technology, will store electrical energy and supply a maximum of 100 MW peak power to PDO's grid during daylight hours.

Petroleum Development Oman (PDO) is making significant strides in renewable energy with plans for two 100 MW wind farms and a solar PV Independent Power Project (IPP) integrated with a battery energy storage system (BESS). These projects support PDO's goal of sourcing 30% of its energy from renewables by 2026 and align with its broader decarbonization ...

Cornex New Energy Co.,Ltd. is a globally-oriented new energy innovation and technology company of lithium-ion battery, which focuses on the development, manufacturing and sales of traction battery and energy management system which includes electrochemical energy storage, electric vehicle, commercial vehicle, construction machinery and others.
