Later manga in the Japanese G1 canon finally brought Optimus Prime proper, with Transformers: Return of Convoy seeing the Autobot leader coming back in the form of Star Convoy. By that point, the G1 iteration of Transformers was coming to an end, but Optimus Prime would continue to roll out. Marvel Comics Had Its Own Take On G1 Optimus Prime

Optimus Prime. Optimus Prime, known in Japan as Convoy, is a character from the Transformers franchise. Prime is the leader of the Autobots, a group of transforming robots from the planet of Cybertron. The Autobots are constantly at war with another group of transforming robots called Decepticons. [1] According to Bob Budiansky, co-writer of the Transformers series, Dennis ...

This special edition Optimus Prime Converting Power Bank figure converts into a device charger with 6500mAh of battery power that works with most devices. The figure comes with a Micro USB/USB cable for charging and a cool blue LED Energon sword that lights up when plugged into the figure.

For this cable we use our special solid core PC-triple C wires with a different twisting than the standard Optimus Power Cord. The copper was made in Japan according to our own specifications. In total twelve conductors are being used ...
