

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting with generators and the existing grid.

These solar distributors are the ones who deal with homeowners who want to go solar, businesses that work with the solar industry and solar installers who offer solar system services to both residential and commercial customers.

Aptech Africa implemented solar systems in 11 distinct villages, featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting with generators and the existing grid.

Nuestros servicio de venta y distribuci&#243;n de paneles solares en Malabo Guinea Ecuatorial, al igual que otros servicios, cuentan con un servicio premium pre venta, orientado a resolver cualquier duda y/o inquietud planteada por el cliente, con el objetivo de determinar si la soluci&#243;n tecnol&#243;gica que est&#225; buscando, se adec&#250;a a sus necesidades.

Specifically for Equatorial Guinea, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and ...
