

From the design of small village solar power systems to the installation of the grid and off-grid systems, we can offer a solution to suit the needs of domestic, commercial, tourism, and rural clients. Clay Engineering specializes in renewable energy power systems and the design of remote infrastructure services.

Yasana Renewable Energy in Fiji acts as a comprehensive provider of complete solar energy solutions. Encompassing Development, Financing, Engineering, Procurement, Construction (EPC), Independent Power Producer (IPP), Operation and Maintenance (O& M) services tailored for Fiji and the wider Pacific region.

Commercial & Industrial solar systems by Solar Electric Supply are custom solar panel grid-tie power systems for buildings, as well as off-grid. As known, commercial property owners looking to reduce overhead and save on utility bills are turning to solar energy in a big way.

Our wide range of solar panels and chargers provide you with an eco-friendly solution to supply a residential or commercial application with green energy. All solar panels are ideal for remote and isolated locations, saving the cost of running power mains wires.
