

How many rooftop solar PV systems will be installed in Turks & Caicos?

The contract outlines the installation of five rooftop solar PV systems, with battery energy storage and accessories at the following critical public facilities: These rooftop solar PV systems are specially designed for resilience to withstand fierce climatic conditions in the Turks and Caicos Islands.

Does Turks and Caicos have a policy on energy efficiency?

Turks and Caicos has few policies related to energy efficiency and renewable energy. Historically, the territory has not implemented policy mechanisms to aid in the development of clean and energy-efficient technologies.

Could ocean thermal energy help Turks and Caicos meet its peak demand?

Once wave and ocean thermal technologies are proven in the marketplace, ocean energy and ocean thermal energy conversion have potential as well. Abundant wind and solar resources, as well as the potential for other renewable sources could help Turks and Caicos meet or exceed its peak demand of 34.7 MW.

What is happening in the Turks & Caicos Islands?

The Turks and Caicos Islands (TCI) Government continues to move towards a more sustainable and secure future with the execution of the Contract Agreement by HE Governor Dileeni Daniel-Selvaratnam for and on behalf of the TCI government and the contractor, Green Revolution Ltd, for the installation of five (5) solar photovoltaic systems.

What are the natural resources of Turks and Caicos?

The primary natural resources are spiny lobster, conch, and other shellfish. Turks and Caicos contains three terrestrial ecoregions: Bahamian dry forests, Bahamian pineyards, and Bahamian-Antillean mangroves. The two distinct island groups are separated by the Turks Island Passage.

Why are the Turks and Caicos Islands a biodiversity hotspot?

The Turks and Caicos Islands are a biodiversity hotspot. The islands have many endemic species and others of international importance, due to the conditions created by the oldest established salt-pan development in the Caribbean.
