

Are Lithionics batteries made in the USA?

Since at least 2018, Lithionics has falsely labeled its battery products with an American flag image and the words 'Made in U.S.A.' when these products are primarily made overseas.

What voltages does lithionics battery offer?

Lithionics Battery® offers battery solutions at 12V, 24V, 36V, 48V, 51V, 72V, 96V, 144V along with customer specified voltages! Suitable for inverted hotel loads, trolling, electric propulsion, bow thruster and all your electric or hybrid marine needs. Low Speed Electric Vehicles & Automatic Guided Vehicles

Who makes a battery in Poland?

In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Who makes Li-ion batteries?

In Gliwice, Johnson Matthey Battery Systems manufactures Li-ion battery packs for power tools, electric bicycles, and other mobility solutions, meeting the demand for efficient energy storage solutions. Specifically, Gliwice specializes in rechargeable lithium-ion batteries, producing a wide range of systems with varying power and capacity.

How do I connect my lithionics battery?

Lithionics Battery® recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems. The Plug & Play system features our parallel combiner box for parallel connections, or a series wire harness for series connections.

Why is Poland a good place to build a battery?

According to Krzysztof Burda, president of the Polish Chamber of Electromobility Development (PIRE), Poland's strategic location makes it "an ideal hub for battery, components, and subassembly factories". In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there.
