Gdansk, Poland - Northvolt's vision of enabling the future of energy takes a new step forward through a \$200
million expansion of its battery systems capabilities in Gdansk, Poland. Entering production in 2022, a new
factory will have an initial annual output of 5 GWh, and a potential future capacity of 12 GWh.

As the globe rushes headlong towards its urban future, the volume of municipal solid waste (MSW), one of the
critical by-products of an urban lifestyle, is increasing at a rate that is outpacing the rate of urbanization (Tahir
et al. 2015).The quantity of municipal solid waste (MSW) generated by cities throughout the world is expected
to rise from 1.3 billion tons per ...
