What kind of energy does Haiti use?

This page is part of Global Energy Monitor 's Latin America Energy Portal. Haiti relies on a mix of imported oil and domestic biofuelssuch as wood and sugar cane for its total energy supply. As of 2020,more than 90% of electrical generation in Haiti was derived from fossil fuels and less than 10% from renewables.

Why is Haiti struggling to modernise its energy sector?

Haiti's recent battles to modernise its energy sector serve as a stark lesson for how fraught the business of energy transition can be. In the wake of the scandal, the struggle to provide Haiti's 11 million people with reliable energy - and the desire to attract foreign investment to do so - has taken on an evermore politically charged hue.

Is biomass a source of electricity in Haiti?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Haiti: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Can private investment help solve Haiti's energy crisis?

"We have had this energy crisis for a long time,more than 20 years," says Evenson Calixte,managing director of Haiti's Autorité Nationale de Ré gulation du Secteur de l'Energie (ANARSE),the nation's energy regulatory authority. "And we believe that one element that can help reform this sector is private investment."

Does Haiti produce crude oil?

Haiti does not produce, export, import, or have proven reserves of crude oil or natural gas, nor does it produce refined petroleum products. During 2016, Haiti imported 20,030 barrels per day of refined petroleum products.

What is the largest solar plant in Haiti?

A 12 MW solar plantbeing funded by the IDB and USAID was slated to be completed in 2023, as of September 2021, and would be the largest solar plant in Haiti. Haiti suffers immensely from climate change, particularly from hurricanes, flooding, droughts, and shoreline erosion.
