Welcome to Rhino ONWARD International! We are a design/build powerplant developer providing the development, construction, and maintenance of our Solar-based Power Plants for our clients as well as provide electricity to the wholesale power market, the "grid."

His visionary approach led Paul to start Rhino Onward International (ROI), which focuses on green energy solutions, concentrated solar power, water desalination, and green hydrogen. As its Founder and Executive Chairman, Paul aims to emerge as the global leader in delivering green energy solutions. ROI will empower its clients to achieve their ...

Croft and his business partner Frost agreed to his terms, Kawamura said. The two businessmen had several joint endeavors branded with the word "rhino" -- Croft has described a kinship with the animal for its toughness and rareness, among other things -- and on Jan. 26, 2022, Rhino Onward International was incorporated in Illinois.

Rhino Onward International (ROI) is an independent developer of low-carbon alternative energy solutions. It creates cradle-to-grave renewable energy by harvesting solar energy and brackish (non-potable) water to generate electricity, green hydrogen, and clean water.

Among them was Rhino Onward International, a fledgling Chicago-based company with ambitious plans for a green hydrogen plant in Arizona. As far as its former CEO Brian Kawamura knew, Croft and Frost were the green energy company's sole owners, he said. But this summer, he said, he got an inkling that the shareholder's situation -- and thus ...

In a Sept. 22 note to Rhino Onward International investors reviewed by the Times Free Press, Croft said the abrupt Sept. 12 closure of the Croft & Frost accounting firm came to him as a surprise. Croft has been seen at company-affiliated events, such as the business conference in Dallas in May. But at the request of Frost and Croft & Frost ...

Going Green with Rhino Onward International. His visionary approach led Paul to start Rhino Onward International (ROI), which focuses on green energy solutions, concentrated solar power, water desalination, and green hydrogen. As its Founder and Executive Chairman, Paul aims to emerge as the global leader in delivering green energy solutions.

Welcome to Rhino ONWARD International. We create the greenest and cleanest cradle-to-grave renewable energy by harvesting Solar Energy and brackish (non-potable) water to generate electricity, green hydrogen, and clean water.

Who is Rhino Onward? We provide solutions that help combat the negative impacts of climate change. With societies around the world maturing there is an increasing demand of energy. Climate change threatens our societies and environment.
