

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

Do solar panels withstand hurricane-force winds?

We understand the challenges of designing solar systems in a salty, corrosive climate. We prioritize sourcing smart technology and materials to guarantee durability and reliability. Our solar panels withstand hurricane-force winds, are backed by a 30-year energy production guarantee and paired with Enphase IQ microinverters.

What is Sunny Side Solar?

Sunny Side Solar believes the scientific evidence that climate change is the most serious threat of our time. Therefore, we are dedicated to making Bermuda more resilient by taking positive action to diversify the energy supply. The best opportunity for this, after energy efficiency and conservation, is installing solar.

Who is Sunnyside Solar?

To that end, we created a non-profit company that offers steep discounts by keeping overheads to a minimum and tapping into the highly competitive North American wholesale solar market. The cofounders of Sunnyside Solar are Bermudians, Nick Hutchings and Claire Smith.
