

Who is Bermuda Electric Light Company?

In the 1950s, we decided against developing a tramway for the island and so removed the word "Traction" from the Company's name and became what we all know today as the Bermuda Electric Light Company Limited - BELCO. We embraced new technologies as we grew.

When was the first commercial electricity provided in Bermuda?

In May 1907 the Bermuda Electric Light, Power and Traction Company Limited (BELP&T) provided the first commercial electricity to a handful of customers in Hamilton. The Company had been incorporated several years earlier by several prominent Bermudian businessmen.

Will Bermuda have 85% of its power by 2035?

The IRP aimed to have 85% of Bermuda's power generated by renewable means by 2035. Shareholders of Ascendant Group Ltd gave overwhelming backing for BELCO to be purchased by Algonquin Power and Utilities Corporation.

When did Belco start supplying electricity in Bermuda?

BELCO was incorporated in 1904 as the Bermuda Electric Light, Power & Traction Company (B.E.L.P.&T.), and started to supply electricity in Bermuda on 1 May 1908. The Company purchased its present site on Serpentine Road, Hamilton in 1909 and moved its operations there.

What happened to Bermuda gas & utility company?

The 1990s saw us diversify and grow into other business including our purchase of Bermuda Gas and Utility Company in 1994. Established in 1936, Bermuda Gas was a distributor of commercial and residential propane gas and operated retail and service operations.

How much electricity does Bermuda use?

Large commercial organizations use about 40% of electricity produced. The standard voltage in Bermuda is 120 V and the standard frequency is 60 Hz AC. Flat, two-pronged plugs (Type A) are in use. All US and Canadian appliances work on the island, without voltage converters or adapters.

MAN Energy Solutions has installed, commissioned and handed over a 56 MW power plant block to its customer, Bermuda Electric Light Company (BELCO). The new unit expands the Pembroke power station which supplies most of the energy needs of Bermuda's capital city Hamilton.
