

How big is a lithium-ion battery factory in ASEAN?

Built on about 90-rai plot of land in Chachoengsao in the Eastern Economic Corridor (EEC), the lithium-ion battery-making facility can be further expanded by 10 times. Its production capacity can likewise be maximised to 50-gigawatt hours per year (GWh/year), the largest of its kind in Asean, said a source.

How many gigawatts a year can a lithium ion battery produce?

Focused on the import, assembly and distribution of battery modules and battery packs for energy storage systems and EVs, the plant will deliver high-quality lithium ion batteries with an initial production capacity of 2 gigawatt-hours per year.

What's going on with Lithium Exploration in Thailand?

The Thai government is also pushing for lithium exploration in new areas, including revising regulations to enable private firms such as Matsa Resources (MAT.AX), an Australian miner hunting for lithium in Thailand, to undertake studies on agricultural land, DPIM's Aditad said.
