

ABU DHABI, 19th, 2022 (WAM) - The Republic of Seychelles moved a step closer to realizing its clean energy ambitions with the inauguration of a UAE-funded 5-megawatt (MW) solar ...

"In Seychelles, the installation of a 14 MW grid-scale battery energy storage system (BESS) was supported by UNDP with a budgeted cost of Rs 270 Mn in 2021.8 "100% population in Seychelles had access to electricity as of 2020.9 "Seychelles Energy Commission is the energy regulator responsible for the oversight and planning of energy issues.10

The battery storage plant will help with stable supply of electricity from the PV power plant to the main island of Mahé; and to increase the resilience of the national grid of the ...

ABU DHABI, 19th, 2022 (WAM) - The Republic of Seychelles moved a step closer to realizing its clean energy ambitions with the inauguration of a UAE-funded 5-megawatt (MW) solar photovoltaic (PV) plant with battery storage, the second ...

The floating solar plant is a game-changer for Seychelles, providing a reliable source of renewable energy and contributing to the country's sustainable development. We are especially proud to sign the first Seychellois PPA for a floating solar plant on Energy Observer, our partner zero-emission vessel."

The battery storage plant will help with stable supply of electricity from the PV power plant to the main island of Mahé; and to increase the resilience of the national grid of the Seychelles.

The Republic of Seychelles moved a step closer to realizing its clean energy ambitions with the inauguration of a UAE-funded 5-megawatt (MW) solar photovoltaic (PV) plant with battery storage, the second clean-energy project in the African island nation.
