

Why is solar power costly in Sierra Leone?

Solar power is delivered at a very high cost in Sierra Leone, despite the country having an estimated hydro project potential of more than 1000MW and abundant sunlight for solar power generation, with opportunities above 240 MW.

When did easy solar start in Sierra Leone?

Easy Solar started operating in 2016 in Sierra Leone. They initially performed a customer survey of 2,000 households in January 2016, followed by a 200 customer pilot in March of the same year and the team moved full-time to Freetown in August 2016. In the first two years, its customer base grew from 200 to over 100,000 between 2016 and 2019.

Why is easy Solar ranked in Africa's fastest growing companies?

This ranking is a testament to the company's commitment to providing sustainable energy solutions to communities across the region. Easy Solar was recently featured in the Financial Times as #9 on the list of Africa's fastest growing companies.
