

Networked Energy Services is delighted to announce it is participating with ACI to help OSHEE (Electricity Power Distribution System Operator) in Albania to utilize its smart meters.

Networked Energy Services Corporation has announced the successful completion of the deployment phase of its smart grid project with OSHEE (Electricity Power Distribution System Operator) in Tirana, Albania.

Policymakers aware that a system that is changing because of grid modernization will require additional costly investments, will be passed through to consumers in the short run, but should ...

The smart grid solution will be deployed in cooperation with NES partner, ACI, an established energy services and infrastructure provider in Albania and supplier to OSHEE, who will perform installation services for the NES System.

NES delivered its smart metering, smart meter operational support system, grid operations and Grid Navigator and Grid Flow analytics applications. The smart grid was deployed in cooperation with NES partner, ACI, an energy services and infrastructure provider in Albania and supplier to Oshee.

NES will be providing its OSGP (open smart grid protocol) based smart metering solution, its smart meter operational support system, Grid Operations, and its analytics solutions. The smart grid solution will be deployed in cooperation with NES partner, ACI.

The Electricity Distribution Operator (OSHEE) opened this week the competition for the first phase of the project, which envisages the installation of smart meters in electric cabins, and this will start in two municipalities that have problems. The limit fund for this phase is 8.5 million euros.

Policymakers aware that a system that is changing because of grid modernization will require additional costly investments, will be passed through to consumers in the short run, but should benefit them in the long run.

The smart grid solution will be deployed in cooperation with NES partner, ACI, an established energy services and infrastructure provider in Albania and supplier to OSHEE, who will perform installation services for the ...
