

What is the power sector policy in Guinea Bissau?

Guinea Bissau: Power Sector Policy Note EXECUTIVE SUMMARY The electricity sector in Guinea Bissau is in the midst of a transformational reform towards a sustainable development characterized by reliable, greener and affordable service delivery.

How will the ECOWAS regional Access Project Impact Guinea-Bissau?

The ECOWAS regional access project will extend and strengthen the distribution network in Guinea-Bissau, supplying electricity to an additional 198,000 people (33,000 households) by 2022. A low-hanging fruit opportunity exists to bring electricity to an additional 31,443 households.

Why is Bissau not able to support modern economic activity?

Modern economic activity in Bissau cannot be supported due to the absence of the transmission infrastructure in the distribution grid concentrated in Bissau. The distribution network is composed of 344 km of 0.4 kV low voltage lines, 46 km of 6 kV lines (currently being replaced by 10 kV lines), and 68 km of 10 kV lines.

A Turkish firm has cut power supplies to Guinea-Bissau's capital over an unpaid bill of at least \$15m (&#163;12m), plunging the city into darkness. It has severely disrupted daily life, with...
