

Can a solar array power Tokelau?

Solar Array's seen on the three tiny islands of Tokelau to completely produce solar power energy. The renewable energy system comprising of solar panels, storage batteries and generators running on biofuel derived from coconut will generate enough electricity to meet 150% of the islands' power demand.

Who will install a new solar system in Tokelau?

Jointly funded by the governments of Tokelau and New Zealand, the \$NZ9 million (\$USD5.7m) system will be installed by New Zealand company Vector PowerSmart. Tokelau's existing solar system was eight years old and in need of upgrading because of increasing demand for electricity and wear and tear from the harsh marine environment, it said.

Will Tokelau's solar energy system be upgraded?

Tokelau's solar energy system is set to be upgraded on each of its three atolls. Jointly funded by the governments of Tokelau and New Zealand, the \$NZ9 million (\$USD5.7m) system will be installed by New Zealand company Vector PowerSmart.

What is New Zealand doing with Tokelau solar?

New Zealand company Powersmart is working on the project with IT Power Australia, the Government of Tokelau and the New Zealand Aid programme. "New Zealand is advancing \$7 million to Tokelau to fund installation of the systems. All three solar plants are expected to be operational before the end of the year," Mr McCully says.
