

This is to declare that SolarEdge inverters set to the country setting "Jamaica 220V (No N)" or to "Jamaica 240V (No N)", operate at a nominal frequency of 50 Hz. This declaration applies to the following inverters:

The SolarEdge DC-AC PV inverter is specifically designed to work with the SolarEdge power optimizers. Because MPPT and voltage management are handled separately for each module by the power optimizer, the inverter is only responsible for DC to AC inversion.

? With our Design team at Sedai-Jam we choose the best route for you to become a solar system owner. By using cutting edge software and engineering knowledge we can guarantee that your system will be size right and cost right.

Solartech Jamaica was founded in 2006 and incorporated in 2008 as a renewable energy solutions provider. Our Mission is to work with our clients to provide solutions to mitigate against high energy costs and unexpected disruptions in their power supply, while contributing positively towards the protection of the environment.

USSolar Jamaica and SolarEdge Taking Jamaica by a Solar Storm - The other day, we announced (Can't Wait for the Jamaica Alternative Energy Expo? Neither Can We!) a special training and pre-order sale leading up to the
