

What is the first commercial solar project in the Cayman Islands?

The 5MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

What are the benefits of solar power in the Cayman Islands?

Supplies sufficient power to Caribbean Utilities Company, Ltd. to serve 1,800 homes in the Cayman Islands. Reduces greenhouse gas emissions by 7,900 tons of CO₂ per year. Serves as the country's only utility-scale solar project, providing renewable energy to the grid's peak load of 110 MW.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Why did Bodden Town solar move to the Cayman Islands?

The original developers of the Bodden Town Solar facility sought to exit the Caribbean market once the plant entered service. BMR seized the opportunity to establish operations in the Cayman Islands, expanding the footprint of its business and positioning itself for further growth in this important market.

Why did BMR invest in the Cayman Islands?

BMR seized the opportunity to establish operations in the Cayman Islands, expanding the footprint of its business and positioning itself for further growth in this important market. As the only existing utility-scale project, there is potential to expand the project to generate more renewable energy for the island.

BMR Energy announced today its acquisition of a 5 MW solar plant in the Cayman Islands from Entropy Cayman Solar I. The Virgin Group company will take over all operations of the country's only utility-scale solar project and the power purchase agreement with the local utility, Caribbean Utilities Company, Ltd. (CUC). The Bodden Town Solar #BMR ...

The energization of a 5 megawatt (MW) solar farm located on 22 acres of lands at Block 43A Parcel 346 in Bodden Town, Grand Cayman in June of 2017 was recorded in history as the first utility-scale grid-connected solar ...

The 5 MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts. The facility is connected to CUC's Bodden Town ...

The company develops and operates clean energy projects in the Caribbean and in Latin America. BMR Energy also has projects in the U.S. Virgin Islands, Guatemala and Jamaica. BMR Energy purchased the PPA with Caribbean Utilities Company for the Bodden Town Solar Farm, the islands' only utility-scale solar project.

Caribbean Utilities Company hopes to build as many as six major solar farms in an effort to slash Cayman's carbon emissions, meet renewable energy targets and cut the cost of electricity.

The 5 MW Solar Farm is the first commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman.
