What is the solar farm in Southwest Georgia?

The 250-megawatt DeSoto Solar Farm is a solar farm to be built in Southwest Georgia. It will provide clean energy to electric membership cooperatives (EMCs) across the state. Nashville, Tenn.-based solar developer Silicon Ranch Corp. will invest over \$220 million in the project. Ground was broken Wednesday on the solar farm in Lee County.

Are solar farms polluting South Georgia's rivers & streams?

Dave Williams is the Bureau Chief of Capitol Beat News Service. Runoff from a growing number of giant solar farms polluting rivers and streams in rural South Georgia is becoming a major concern, an official with the state Environmental Protection Division said Monday.

Why are solar farms being built in Georgia's sandy soil?

Huge solar farms of up to 1,000 acres are being built on the region's sandy soil, which is particularly vulnerable to erosion of sediment caused by runoff from solar panels, James Cooley, the EPD's director of division operations, told members of the Georgia House Rural Development Council meeting in Americus.

How many solar farms are there in Georgia?

While large solar farms tend to stand out because they're often located near busy highways, they take up only a tiny percentage of Georgia's land mass, PSC Chairwoman Tricia Pridemore said. Currently, there are about 35,000 acres of solar farms spread over 54 square miles, just 0.9% of the land in Georgia, she said.

How much money do solar farms make in Georgia?

Landowners and local municipalities in Georgia are receiving about \$2.9 billion a year in income by leasing land being used for solar farms by Georgia Power alone, said Ryan Sanders, executive director of the Georgia Large-Scale Solar Association.

Runoff from a growing number of giant solar farms polluting rivers and streams in rural South Georgia is becoming a major concern, an official with the state Environmental Protection Division said Monday.

Winton solar farm, developed by Fotowatio Renewable Ventures, has now been commissioned and contributes cheap, renewable solar power to Victoria's electricity grid. Winton supplies power to 52,000 homes and generated 200 jobs during its construction, bolstered by the state government's first round of the Victorian renewable energy target ...

South Sandwich Islands, group of actively volcanic islets in the South Atlantic Ocean, north of the Weddell Sea and 470 miles (760 km) southeast of the island of South Georgia. They extend for 190 miles (305 km), occupy 120 square miles (310 square km), and are covered with glaciers. Until 1985 they were included within
