

Who is PowerSource 1800?

PowerSource 1800 Owner's Guide About Xantrex Xantrex Technology Inc. is a world-leading supplier of advanced power electronics and controls with products ranging from small mobile units to utility- scale systems for wind, solar, batteries, fuel cells, microturbines, and backup power applications in both grid-connected and stand-alone systems.

How do I use the powersource 1800?

1. Plug the power cord directly into a wall outlet (not into a surge protector or power strip). 2. Connect your electronic devices or small household appliances to the five AC outlets of the PowerSource 1800. 3. Turn on the unit by pressing the Power button for at least half a second.

Who owns XPower PowerSource 1800?

Trademarks XPower PowerSource 1800 is a trademark of Xantrex International. Xantrex is a registered trademark of Xantrex International. Other trademarks, registered trademarks, and product names are the property of their respective owners and are used herein for identification purposes only.

How do I test the powersource 1800 backup power capabilities?

To test the PowerSource 1800 backup power capabilities after installing the unit, unplug the AC power cord to simulate a power outage. Ensure the products connected to the PowerSource 1800 continue operating. You can test the surge capabilities of the PowerSource 1800 by turning connected products on and off while the unit is unplugged.

How long does PowerSource 1800 run?

During a power outage or other utility problem (such as brownouts and over-voltages), PowerSource 1800 will keep running the connected products for up to 10 hours, depending on the power draw of your application (see "Run Time on Typical Products" and "Run Time for Combinations of Products").

Why is my PowerSource 1800 not working?

PowerSource 1800 has detected an over- temperature condition. PowerSource 1800 has exhausted its available battery power. PowerSource 1800 may require service. Make sure the products plugged into the AC outlets are not exceeding the output power rating of the unit when supplying backup power. Try removing or substituting some of the products.

This complete solar kit comes with the Delta 1300 solar generator from EcoFlow along with 3 compatible 110-watt solar panels, making it one of the best 330-watt flexible solar panel kits you can buy.
