Seamless integration with a hybrid inverter, Lithium Ion Battery and touchable monitor system. The best solution to reach energy independence from the Grid. The Hybrid Inverter is equipped with multiple pre-programed operational modes, which can be adjusted to optimize the benefits to the home owner, according to their requirements.

As the leading supplier of high-quality solar equipment in Namibia, we empower both residential and commercial customers with reliable, sustainable, and cost-effective energy solutions. Key Benefits: Renewable Energy for All : Discover ...

Each system incorporates a unique all-in-one inverter/charger that is able to charge batteries from solar with the integrated MPPT solar charge regulator as well from a generator/grid connection while at the same time supplying loads with AC power.
