Even on those cloudy days in Isle of Man, the sun is still there and your solar panels will still be collecting energy. The best spot for your solar panels to be placed are, of course, in a southern exposure. That's where you have the most sun all day long. And once those panels are in place, they will do the work for you.

Solar energy is freely and abundantly available, virtually anywhere on earth, but especially in Africa. Solar power shields homeowners and businesses from power blackouts and future electricity price hikes. The carbon footprint of solar power generators is much lower than that of coal or gas-fired power plants (about 10 to 20 times).

We are proud to offer our quality solar panels and solar energy products with installations for residential, commercial and industrial premises at competitive prices. Phone (+260) 97 2852 300 | Email sales@switchacdc
