

To encourage people to switch to solar power and solar panels, the government offers tax credits. This includes those who install solar panels on rooftops, regardless of whether they are for commercial or residential use. 7. Easy monitoring of ROI. Solar panel users can utilize the data to track their rooftop solar systems.

The primary benefit of a solar PV panel installation for an SME, the reduction in your energy bill and carbon emissions will depend on how much of your energy you generate with solar panels. The UK average electricity bills for small and medium-sized businesses across all sectors clock in at £1,900 - £2,900 and £3,300 - £5,000 respectively.

Turn your unused roof space into an asset. A typical industrial-scale solar panel system will provide free electricity for more than 25 years, achieve financial returns of more than 15% per annum and pay back installation costs within 5-years.. Reduce costs and improve your bottom line. The carbon trust states that a 20% cut in energy costs represents the same bottom line ...
