

Can I move solar PV panels?

Yes, it is possible to move solar PV panels; however, the costs will likely outweigh the benefits. Unless you have a very large system, you will no longer be eligible for Feed-in Tariff payments. Additionally, the solar PV system's efficiency may be compromised when moved.

What happens if you move solar panels outside your service area?

Things get more complicated when you move outside of your solar company's service area. Since they don't operate in your new neighborhood, you won't be able to have them move your solar panels. In that case, you'll either have to move the solar panels yourself or hire a third party to move them for you.

Can I move my solar system to a new home?

It's best to use the same company that originally installed your solar panels when moving your system to a new home. The experienced solar technicians from the company will know how to safely remove, transport, and reinstall the solar panels in the most efficient way possible.

How much does it cost to move solar panels?

Read here Moving solar panels is technically possible but not financially advisable. Relocation costs include labour, scaffolding, MCS re-registration, and storage, totalling approximately £5,280. These costs can amount to a huge chunk of the initial installation cost of the solar system.

Can solar panels be damaged during a house move?

Solar panels are extremely fragile and contain delicate electrical wiring. The risk of damaging the photovoltaic modules during removal, disassembly, packing for shipping, and transportation to another place is high. If not handled properly, your solar equipment can be completely ruined during your house move.

What happens if you move out of state with solar panels?

If you're moving out of state or don't want to take your solar panels with you, your solar lease agreement will be transferred to the new buyers - if they don't agree to take over the lease, though, you'll have to buy out the remainder. Moving out of state with a solar panel lease is a consideration for those planning a move.

Consider these factors before installing solar to maximise the energy output of the panels. Get three solar installation quotes. No Obligation Free Quotes. Search. Search. Close this search ...
