

Solar power generation and heating scam exposed

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

How do I report an energy scam?

They might try to contact you by: text message. These are energy scams. Ofgem would never sell you energy, ask for personal information or come to your property. Report the scam to Action Fraud, the reporting centre for fraud and cyber-crime in England, Wales and Northern Ireland. In Scotland, contact Police Scotland on 101.

Are changes to our energy bills a scam?

Changes to our energy bills offer a prime opportunity for scammers to sow confusion - and this year is no different. In July, the government announced plans to scrap the winter fuel payment for millions of pensioners not claiming means-tested benefits.

Are 'upselling scams' causing a surge in solar panel fraud?

However, homeowners making the most of the Government's solar panel drive have increasingly fallen victim to conmen. Citizens Advice has warned of a surge in solar panel fraud, particularly "upselling scams" in which cold-callers convince customers to upgrade technology they already have to meet fabricated legal "standards".

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you up for a "free" program to make your ...
