

What are the most common solar panel scams?

Here are some common solar panel scams to look out for. Fake solar companies: Perhaps one of the most common solar scams involves creating a fake company and "selling" solar panel systems without any intention of ever installing them. These fake companies may request a large upfront deposit and then disappear before ever completing any work.

Are free solar panels a scam?

Free solar panels are indeed a scam. This deceptive marketing tactic is often used to promote solar leases and power purchase agreements (PPAs), which come with long contracts and monthly payments that escalate over time.

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

How do I avoid solar panel scams?

Knowing about solar scams and what to look out for can help you protect your assets and prevent you from becoming victimized. To avoid solar panel scams, we strongly recommend doing your own research and verifying that your solar company is legitimate before signing any contracts. Take time to make the right decision: Never rush into a contract.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Can you get scammed if your roof panels don't work?

In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid getting scammed, you need to know what to look out for and when to walk away.
