

What is Oman Solar?

Oman Solar is a company that uses the latest technology to convert natural resources into electrical power through solar photovoltaic energy. This solution is reliable and suitable for remote applications in the region due to the nearly year-round availability of sunlight. At Oman Solar, we harness the power of the sun.

Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

Is solar energy a viable option in Oman?

Solar energy is a viable option in Oman given the vast unused land and available solar energy resources. It could not only cater to the growing need for energy diversification but also help in economic diversification in Oman.

What is the Sultanate of Oman doing with solar energy?

As of currently, the Sultanate of Oman is implementing solar energy applications for street lighting, traffic lights, and telephones in remote areas.
