

What country code is Svalbard & Jan Mayen?

Svalbard and Jan Mayen are collectively assigned the ISO 3166-1 alpha-2 country-code "SJ". Both areas are administered by Norway, though they are separated by a distance of over 950 kilometres (510 nautical miles) and have very different administrative structures.

Who owns the Svalbard archipelago?

The Norwegian state took possession of all unclaimed land, or 95.2% of the archipelago, at the time the Svalbard Treaty entered into force; Store Norske, a Norwegian coal mining company, owns 4%, Arktikugol, a Russian coal mining company, owns 0.4%, while other private owners hold 0.4%.

Is Svalbard part of the EEA?

Svalbard is subordinate to Nord-Troms District Court and Høyesterett, the Supreme Court of Appeal, both in Tromsø. Although Norway is part of the European Economic Area (EEA) and the Schengen Agreement, Svalbard is not part of the Schengen Area or the EEA.

How did the Svalbard Treaty of 1920 affect Norway?

The Svalbard Treaty of 1920 established full Norwegian sovereignty over the archipelago. The islands are, unlike the Norwegian Antarctic territories, a part of the Kingdom of Norway and not a dependency. The treaty came into effect in 1925, following the Svalbard Act.

Does Svalbard need a Schengen visa?

Although Norway is part of the European Economic Area (EEA) and the Schengen Agreement, Svalbard is not part of the Schengen Area or the EEA. Non-EU and non-Nordic Svalbard residents do not need Schengen visas for Svalbard itself, but those travelling via mainland Norway require visas to pass through Norway.

What is the Svalbard undersea cable system?

The Svalbard Undersea Cable System is a 1,440 km (890 mi) fibre optic line from Svalbard to Harstad, needed for communicating with polar orbiting satellites through Svalbard Satellite Station and installations in Ny-Ålesund.

Svalbard (/ˈsʌvːəlbɑːr(d)/ SVAHL-bar(d), [4] Urban East Norwegian: [ˈsvʰːlbʰr]), previously known as Spitsbergen or Spitzbergen, is a Norwegian archipelago in the Arctic Ocean. North of mainland Europe, it lies about midway between the northern coast of Norway and the North Pole. The islands of the group range from 74° to 81° north latitude, and from 10° to 35° east ...

It was the first Jet Aviation site to offer sustainable fuel, via a blended option, and the 10,000 sq. ft. FBO terminal was constructed to LEED silver specifications, including elements such as regional materials, energy

efficient lighting, and low-flow plumbing fixtures.
