

# Svalbard and Jan Mayen hybrid solar solution

What is the difference between Svalbard and Jan Mayen?

Svalbard is an archipelago in the Arctic Ocean under the sovereignty of Norway, but is subject to the special status granted by the Svalbard Treaty. Jan Mayen is a remote island in the Arctic Ocean; it has no permanent population and is administered by the County Governor of Nordland.

Where are Svalbard and Jan Mayen located?

The islands are located north and northwest of Norway, within the southern limits of Arctic sea ice -- the northernmost point of Svalbard is within a 620 mi (1,000 km) of the North Pole. Svalbard is approximately 24,570 square mi (63,000 square km); Jan Mayen is approximately 145 square mi (373 square km).

Are Longyearbyen and Svalbard facing an energy transition?

Top image: Longyearbyen and Svalbard are facing an energy transition. This is the background for the cooperation agreement between UNIS, Store Norske and SINTEF. Photo: Graham Gilbert/UNIS. Longyearbyen and Svalbard are facing a huge energy transition.

What is Svalbard & Jan Mayen in ISO 3166-2?

ISO 3166-2:SJ is the entry for Svalbard and Jan Mayen in ISO 3166-2, a system for assigning codes to subnational administrative divisions. However, further subdivision for Svalbard and Jan Mayen occurs under Norway's entry, ISO 3166-2:NO:

Who governs Svalbard?

The archipelago is administered by the Governor of Svalbard, which is subordinate to the Norwegian Ministry of Justice and Public Security. Unlike the rest of Norway (including Jan Mayen), Svalbard is a free economic zone and a demilitarized zone, and is not part of the Schengen Area nor the European Economic Area.

Does Svalbard have an ISO code?

While a separate ISO code for Svalbard was proposed by the United Nations, it was the Norwegian authorities who took initiative to include Jan Mayen in the code. Its official language is Norwegian. Both Svalbard and Jan Mayen consist almost entirely of Arctic wilderness, such as at Bellsund in Svalbard.

Among the topics the parties will work closely on in the future are local energy production, with a focus on solar, wind and geothermal heat, future energy storage where batteries, thermal and renewable energy carriers are the focus areas, and management of hybrid energy solutions.

By testing and proving hybrid solutions at Isfjord Radio and elsewhere on Svalbard, and making these a "best practice" for Arctic energy transition, Store Norske Energi hopes to accelerate the introduction of renewable energy in other Arctic communities.

## Svalbard and Jan Mayen hybrid solar solution

The Norwegian state-owned company Store Norske Energi installed the world's northernmost solar farm. The developed pilot project with 360 solar panels is located in Svalbard on the Spitsbergen island - Svalbard's only permanently inhabited island, located 1,300 km (808 miles) from the North Pole.

Svalbard and Jan Mayen offer an unparalleled encounter with the Arctic's untamed beauty - a journey through snow-capped mountains, icy fjords, and a world of rare wildlife. These lands invite adventurers to embark on an Arctic expedition, witnessing the wonders of nature in its purest form, leaving an indelible mark of awe and reverence for the ...

With an electricity price on Svalbard that is three times higher than in mainland Norway, installing PV on Svalbard is a good investment with an expected average payback time of less than eight years, according to Halvorsen.

When I wrote the article Hybrid Power: Myth or Magic in the first edition of Ocean Sailor back in January 2020, hybrid drives were just beginning to be discussed within the cruising fraternity. Back then at Kraken, we had one or two clients that were vaguely interested in it. Fast forward two years or so and now the next five Kraken's to be launched will all have hybrid ...

PVMARS can also apply wind and solar hybrid system solutions to street lights and monitoring systems. For any special customized needs, please scroll to the bottom and fill in the relevant information to contact us. There are 1 x 9000btu or 3 x 9000btu air conditioners, refrigerators, lights, mobile phones, ...
