

What is the best solar battery in Kenya?

The best solar battery in Kenya is definitely a deep cycle battery. Deep cycle solar batteries can be categorized into two; lithium ion batteries and lead acid deep cycle batteries. Lead acid batteries have been around for a really long time. They are the batteries used in cars. Deep cycle lead batteries are specifically used in solar systems.

Are deep cycle lead acid solar batteries cheaper in Kenya?

Deep cycle lead acid solar batteries for sale in Kenya cost more than the car lead acid batteries do. However, they are more affordable than solar lithium ion batteries. The lead acid batteries for solar are valve regulated lead acid batteries (VLRA) meaning they come sealed so gases from the reactions cannot escape.

Are lithium ion batteries better than lead acid batteries in Kenya?

However, the price of these solar batteries in Kenya is higher than that of lead acid batteries. But, lithium ion batteries have a longer life span, are maintenance free, and have a bigger discharge depth than lead acid batteries. You harvest more energy from lithium ion batteries than from lead acid batteries.
