

Does Uzbekistan have an energy balance?

As a result, Uzbekistan released a pilot energy balance in 2019 following the United Nations Statistics Division's International Recommendations for Energy Statistics guidelines. Increasing amounts of energy data are also being published in the energy section of the statistics website in several user-friendly formats.

Will Uzbekistan be a green economy?

It also plans to double its energy efficiency indicator, reduce the carbon intensity of GDP, and provide the entire population and all economic sectors with access to modern, inexpensive and reliable energy. Uzbekistan's considerable RES potential could spur significant development of a green, environmentally friendly economy.

How will the government of Uzbekistan finance electricity projects?

The Government of Uzbekistan will receive this financing at very low-interest rates and with the longest repayment period of up to 40 years. The GCF will also provide a \$4 million grant to cover selected project activities. In Uzbekistan, electricity demand is expected to grow to over 100 TWh by 2030, a significant increase from 61 TWh in 2018.

How much electricity does Uzbekistan produce?

Uzbekistan's total electricity generation capacity is 14.1 GW, with TPPs accounting for 85.8%. With GDP and population growth, the country's electricity demand is bound to increase. Production is therefore forecast to rise to 84.9 billion kWh by 2025 - 40% above the 2018 level.

How much solar power is Uzbekistan pursuing?

The country is pursuing a total of 8.8 GW of prospective wind and large utility-scale solar power via projects that have either been announced or are in the pre-construction or construction phases. Uzbekistan's prospective portfolio includes 5.6 GW of utility-scale solar and 3.1 GW of wind power at various stages of development.

How much natural gas does Uzbekistan produce a year?

Since the early 2000s, Uzbekistan has been exporting 10-15 bcm of natural gas annually (15 bcm in 2018: 8 bcm to China; 4.5 bcm to Russia; 2.5 bcm to Kazakhstan; and 500-550 mcm to other Central Asian countries). On top of its domestic oil production, Uzbekistan imports additional crude oil for its refineries (around 30% of total input in 2018).
