

What is Uganda Solar Energy Association (USEA)?

Uganda Solar Energy Association (USEA) is an independent nonprofit association dedicated to facilitating the growth and development of solar energy business in Uganda and the East African region.

Is solar energy a good investment in Uganda?

Solar Energy Uganda is endowed with favourable solar irradiation of 1,825 kWh/m² to 2,500 kWh/m² per year (See figure 4 below). In the recent past solar power has received increasing attention by investors as well as a promising potential for exploitation of geothermal energy.

Can Uganda meet 100% of its energy needs by 2050?

Despite this, Uganda is endowed with abundant renewable energy potential from sources such as water, wind, biomass and the sun. A study commissioned by WWF Uganda Country office has shown that it is possible to meet 100% of Uganda's energy needs from Renewable energy sources by 2050.

Why is universal energy access important for Uganda?

The Report recognizes that for Uganda, achieving universal energy access is as important as achieving a 100% renewable energy production target. It also recognizes that to be sustainable, the renewable energy solutions presented must address poverty and other social needs as outlined in Agenda 2030 /Sustainable Development Goals.

What is Uganda's Primary energy source?

Concerning the total primary energy consumption, biomass is presently the most essential energy source for most of the Ugandan populace, accounting for 90% of energy consumed (firewood: 78.6%, charcoal: 5.6%, crop residues: 4.7%) (Norton Rose Fulbright (NRFC), 2015)

Can off-grid energy solutions speed up achieving universal energy access in Uganda?

Off-grid solutions if given more attention can speed up and enhance the goal of achieving universal energy access in Uganda. Therefore current and future planning by government should take due consideration on striking a balance between on-grid and off-grid energy solutions. Our recommendations will focus on the later.

Discover our 5KWH 2.5KW Hybrid Solar Power System with a 5KWH LiFePO₄ Lithium Battery, the perfect complete solar system for homes in Uganda. Reliable, efficient, and eco-friendly, this solar home system ensures uninterrupted power and reduced electricity bills.
