

Who is pure solar?

PureSolar specialises in residential solar panels, inverters and batteries for greener, cost-effective, energy solutions. Pure Solar is a leading renewable energy company based in the United Kingdom. We specialise in the design, installation, and maintenance of high-quality solar energy systems for residential, commercial, and industrial clients.

Is pure solar a good company?

After months of research and conversations, we chose Pure Solar, and they proved to be the right choice. Every team, from scaffold workers to panel fitters and electricians, provided a smooth, friendly, and efficient service. They didn't disappoint us at all. Date of experience: 15 November 2023 After upgrading the panel optimizers...

Is the UK a good place for solar power?

Capacity factors of solar PV reached values between 9.8% and 11.4% in the UK in the 2013-2022 period. Derry Newman, chief executive of Solarcentury, argues that the UK's 'famously overcast weather does not make it an unsuitable place for solar power, as solar panels work on daylight, not necessarily direct sunlight.'

What's your experience with pure solar?

Our experience with Pure solar has been more than satisfying. They stepped in to fix our solar panels when the original installer went out of business. They helped us access the warranty and even offered a discount on the labor charges. They went above and beyond, and we are extremely happy! Date of experience: 12 September 2023

Why did you choose pure solar?

After months of research and... After months of research and conversations, we chose Pure Solar, and they proved to be the right choice. Every team, from scaffold workers to panel fitters and electricians, provided a smooth, friendly, and efficient service.

Did pure solar install a solar inverter?

The Pure Solar installer did a great job installing 12 optimizers on the panels, even though James was working alone that day. Setting up the new inverter in our roof space took a bit of time, especially because it wasn't very sunny that day.
