Outdoor power cabinet designed for a variety of applications and can be tailored to fit your specific needs. The cabinet is well suited for power, batteries and telecom/industrial equipment, all integrated into a robust package. This solution has a unique cube design that give flexibility to easily have various heights of cabinets.

Rectifier Outdoor system 6 kVA AC + 12,8-21 kW DC The Rectifier outdoor system combines both AC

and DC feed into one common unit. Simultaneously it provides AC backup power for 230 VAC loads, and 48 VDC power for DC loads and battery charging. The total DC output can be configured up to 21 kW DC load where the

"Easy, locally feasible maintenance is essential when it comes to electrifying Vanuatu's off-grid communities, especially on the outer islands," Power-Blox CEO Alessandro Medici says. "Our patented, innovative technology ensures that electricity supply is growing according to demands by simply adding additional units."
