VATICAN CITY -- Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican City"s energy needs. "There is a need to make a transition to a model of sustainable development that reduces greenhouse gas emissions into the [...]

The initiative"s objective is for Vatican City to function completely with renewable energy, which is a crucial step in the fight against climate change. A Vision of Sustainability

Pope Francis has announced plans for the Vatican City to go solar through his latest motu proprio, Fratello Sole, or Brother Sun. The pope has delegated Vatican governing bodies to work with the Italian government to build an agrivoltaics system in the lands of Santa Maria di Galeria, located outside of Rome and an extra-territory of Vatican City.

26 ????· A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It"s part of Pope Francis" plans to ensure the city state in Rome runs ...

Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican City"s energy needs.

From 20 December, official inauguration day - and in perfect timing to receive the thousands of faithful and visitors who will flock to the Eternal City for the opening of the Jubilee Year - the ...

He also said the electricity the Vatican imports is produced entirely from renewable sources. The walled-in area of Vatican City State covers about 109 acres, including extensive gardens, and the papal property at Castel Gandolfo extends over 135 acres, including about 17 acres of formal gardens, residences and a working farm.

Vatican City's climate is the same as Rome's: a temperate, Mediterranean climate Csa with mild, rainy winters from October to mid-May and hot, dry summers from May to September. Some minor local features, principally mists and dews, are caused by the anomalous bulk of St Peter's Basilica, the elevation, the fountains, and the size of the large ...

The Motu Proprio, Fratello Sole, calls for the construction of an agrivoltaic plant to supply electricity to Vatican City State. In his Apostolic Letter issued Motu Proprio, Fratello Sole of 21 June 2024, ... the installation of a photovoltaic system produces green energy with low carbon emissions as combustion is not involved in its production ...
