Vatican: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

The "block" I live on is roughly 88 acres (I'm rural-ish). Comparable in size to the 100-ish of Vatican City. These are power outages, folks. They happen each and every day in, literally, hundreds of places a day somewhere in the world. Occasionally they're large like the current one in Pakistan. Most days they're small like the one in Vatican ...

With an area of 49 hectares (121 acres) [c] and a population of about 764 [13] (as of 2023), it is the smallest state in the world both by area and by population. [21] It is also the second-least populated capital in the world. As governed by the Holy See, Vatican City State is an ecclesiastical or sacerdotal-monarchical state ruled by the Pope, who is the bishop of Rome ...
