

Clayhill, the UK's first subsidy-free solar farm, which Anesco built with colocated battery storage, before selling on in August last year. Image: Anesco. A new 50MW battery storage site in the UK will be another example of ...

The Breach Farm Battery Energy Storage System was developed by Anesco and Green Hedge Group. The project is owned by Green Hedge Group (100%). The key applications of the project are frequency regulation, ramping and renewables capacity firming. ... The market for battery energy storage is estimated to grow to \$10.84bn in 2026.

UK developer Anesco on Friday said it has sold an 81-MW battery storage portfolio to Gore Street Energy Storage Fund plc (LON:GSF). ... Anesco battery storage units. Image courtesy of Anesco. For GBP 29.2 million (USD 37.8m/EUR 32.4m), Gore Street bought 14 UK-based storage assets with capacities ranging from 1 MW to 20 MW. ...

"We are delighted to be partnering with Shell New Energies on this exciting new project in the storage sector" said Anesco Executive Chairman Steve Shine, "it marks another significant milestone for us at Anesco. ... Sarah has overseen the development and pre-construction stages of 105 solar farms and 150MW of battery storage, whilst ...

Constructed on a brownfield site in Lascar near Manchester, the installation comprises 16 1.25MW/1.25MWh lithium ion containers. The project has been funded, designed and installed by Anesco and is being monitored by the company's operation and maintenance service, which will ensure the batteries continue to perform at their optimum efficiency.

Jack joined Anesco in November 2021 as Commercial Manager, going on to be promoted to Head of Optimisation and Trading in August 2024. As such, he leads our Trading and Revenue Optimisation team, who help investors derive the greatest value from their renewable and battery energy storage assets.

An Anesco representative told Energy-Storage.news today that the price the assets have been sold for, at roughly £360,000/MW, is lower than the build cost a few years ago and in part reflects the falling cost of battery storage.

The merits of co-located battery storage sites - such as this solar-plus-storage site originally developed by Anesco and now owned by GRIDSERVE - were debated during this year's Energy Storage Summit.

Foresight has been targeting investments into battery storage over the past 12-18 months, with JLEN acquiring

the West Gourdie battery project in March this year, and JLEN and FSFL subsequently acquiring the Sandridge asset in May, through a 50:50 equity co-investment. For additional information: Anesco. Foresight Group
