

At Verterra Energy in St. Paul, founder Ted Christopher explained how his small, portable hydro-electric "energy-pods" are placed in rivers to gather and store energy. Verterra, which has nine employees working on a portable micro-grid project with the Army Corps of Engineers, is set to receive \$18 million in DOD funds. ...

Verterra was founded in 2010 with a mission to harness the power of flowing water in rivers, oceans and canals to produce abundant clean, reliable power for all the world's people. Voltturnus is a simple and elegant device that, when submerged in moving water, generates zero emission, baseload electricity.

MINNEAPOLIS, MN, Verterra Energy, Inc. is pleased to announce that Ricky Buch has joined our Advisory Board. His expertise in microgrids and hybrid power systems brings valuable insights to Verterra as it develops international projects for its MHP (modular hydro power) technology Voltturnus. Ricky worked at GE Power for nearly 8 years, most recently as ...

VOLTURNUS, named after the Roman God of Rivers, is the world first hybrid axis modular waterpower technology that harnesses the kinetic energy from both the velocity and the weight in flowing water, found in ...

Photovoltaic installations and mechanisms introducing and regulating energy credit To date, the photovoltaic installations in the territory of the Republic of San Marino are 1,507 (distributed among small businesses and private users), for a total installed capacity of 11.8 MW. 1278 installations, for a total capacity of 10.3 MW, benefit from the net metering mechanism, ...

Verterra Energy, Inc. Mar 26 1 min read. Verterra's 2nd "Innovation Nation" Episode! It's been 7 years since our first episode aired back in the fall of 2016! A lot has happened since then, never as much as you'd have hoped, but ...

At Verterra Energy, we're on a mission to harness the power in the worlds rivers, canals and oceans. To accomplish this, we are commercializing our first device called VOLTURNUS, a pioneering water-power technology that deploys in harmony with the current to capture baseline, zero emission electricity.

Prometeo Energy non "solo energia solare Rimini ma molto di pi"; grazie alla grande esperienza del personale, si occupa anche di installazioni di impianti elettrici, bioedilizia, impianti di telecomunicazioni ecc, garantendo la riduzione dell'"impatto ambientale da parte delle istallazioni e in grado di sfruttare l'energia solare Forl"; ...

FOR IMMEDIATE RELEASE MINNEAPOLIS, MN, September 4th - Verterra Energy, Inc. is pleased to announce that technology entrepreneur Josh Jagdfeld has joined our Advisory Board. Early in his career, Josh co-founded and was Vice President of Sales & Marketing at Intermedia Systems Group, a large format commercial audiovisual design, ...

The small state of San Marino is the oldest and longest-running republic in the world. Distributed over 61,196 km<sup>2</sup>, it is strategically nestled in the Italian peninsula and borders the Marche and Emilia-Romagna regions. A natural panoramic terrace located a few km from the sea and the attractions of the Romagna Riviera.

Verterra Energy was proud to welcome Rep. Betty McCollum and Undersecretary Shyu for a facility and technology tour. Verterra has been working with the US Army Corps of Engineers to deploy and test Voltturnus at multiple scales beginning this year and continuing onto arrays or "V-PODs". Rep. Betty McCollum has been a champion of renewable ...

MINNEAPOLIS -- Verterra Energy aims to bring low-cost electricity to remote locations with its unique modular water-powered Voltturnus V-Pod electrical generator. The idea, according to the company's founder and Chief Executive Officer Ted Christopher, is to place clusters of the 4-foot high by 10-foot in diameter modules in relatively shallow flowing water in ...
