

Can Tokelau support itself with solar energy?

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost 100% self-sufficient in less than 12 months.

What will a 210 kilowatt solar system mean for Tokelau?

Vector PowerSmart chief operating officer Colin Daly said the project would mean the people of Tokelau would enjoy "clean, reliable and renewable energy" for years to come. Additional 210 kilowatt solar arrays would be installed on Atafu, Fakaofu and Nukunono, along with two megawatt hour lithium ion battery storage systems.

Could Tokelau be the world's first renewable nation?

Solar power plants and coconut biofuel-powered generators switched on in Tokelau has made the islands the world's first truly renewable nation.' Imagine a place where the only energy to be found is clean, reliable solar power. Solar Array's seen on the three tiny islands of Tokelau to completely produce solar power energy.

How much electricity does a solar system provide in Tokelau?

Each system alone is among the largest off-grid solar power systems in the world, and together they are capable of providing 150% of current electricity demand in Tokelau, a much higher amount than the 90% that was originally planned for.

Why did Tokelau switch to solar?

Yet despite the challenges involved in installing comprehensive solar systems in such a remote location, switching to solar was absolutely crucial for the tiny collection of islands. "Tokelau's atolls are low-lying and especially susceptible to the adverse effects of climate change," Mayhew stressed.

How many people live in Tokelau?

Tokelau is made up of three small atolls, Atafu, Nukunono and Fakaofu, has an area of around 10km<sup>2</sup>; and is populated by 1,411 New Zealand citizens, all of whom now have their energy needs met by solar electricity systems. "Each system alone is among the largest off-grid solar power systems in the world."

When establishing a company in Tokelau, an interested investor must do due diligence with regard to legal processes, international regulations, and sufficient investment for success. It is critical to understand cultural, social, and political factors that will affect the establishment and growth of one's business; failure to do so could result ...
