So finally I got my EG4 18kpv installed. Had my electrician do the final wiring to the electrical panel. CTs that came with the unit were damaged and to their credit, Signature Solar sent those right out and a few days later I started up my system. It seemed to be working as intended, and we left town for Thanksgiving.

Onesun Solar: Zimbabwe, is one of the sunniest and best-irradiated countries in the world, is perfectly suitable for solar energy installations. Encouraging alternative power production resources is imperative for the country to reduce ...

Not really a review but more of a question. It seems Signature Solar is having a good sale on the eg4 18 Kpv and batteries through the end of the month. I'm reasonably new to this whole field (FYI I'm an EE but my background/experience is in computers/software not in power systems).
